

Alice Huang . Jarvis Consulting

I am a recent graduate of the University of British Columbia that completed my Bachelor's degree in Mathematics and a minor in Computer Science. During my undergraduate life, I learned a lot about coding languages and Algorithms. My favourite topic was front-end development ,so I went for a 3-months-intern at Manong Technology Ltd. where I learned HTML/CSS, Javascript and Vue.js and gained experience in Agile team and Sass development. I am currently working in Jarvis Consulting Group as a technical consultant, I started to dig more of my interes and learned more about the problem solving, gained experience in a Agile scrum team. I hope I am not limited to front-end development but also full-stack development. I am a positive-thinking person who love problem-solvings. I believe that the technology is changing our lives and I want to be one of the top developers to implement more softwares to change people's life and solve issues. I hope I can find a full-stack developer position where I can grow as such developer and apply my skills to help the organization to thrive.

Skills

Proficient: Java, Linux/Bash, RDBMS/SQL, Agile/Scrum, Git

Competent: Donec, fermentum, Donec, fermentum, Donec

Familiar: Donec, fermentum, fermentum, fermentum, fermentum
